SAFETY DATA SHEET (SDS)

Product Name: Coles Ultra Infusions Laundry Liquid (Tropical Paradise)

SDS Number: COL-ULT-LIQ-04

Manufacturer / Supplier: Coles Supermarkets Australia Pty Ltd

Issue Date: October 2026

Address: 800 Toorak Road, Hawthorn East VIC 3123, Australia

Version: 2.1 (GHS 7 / WHS Australia)

Emergency Telephone (Poisons Information): 13 11 26

Product Ref / APN: APN 9300617068399

SECTION 1: IDENTIFICATION

Product Name: Coles Ultra Infusions Laundry Liquid (Tropical Paradise)
Intended Use: Household laundry detergent for machine washing (Top and Front loaders).
Supplier: Coles Supermarkets Australia Pty Ltd, 800 Toorak Road, Hawthorn East VIC 3123, Australia.
Customer Care: 1800 061 562 | **Poisons Information Centre:** 13 11 26 (24/7 Australia-wide).

SECTION 2: HAZARDS IDENTIFICATION

Classification under Safe Work Australia & GHS 7:

Signal Word: DANGER

- **H318:** Causes serious eye damage (Category 1).
- **H315:** Causes skin irritation (Category 2).
- **H317:** May cause an allergic skin reaction (Category 1).
- **H402:** Harmful to aquatic life.

Precautionary Statements:

- **P102:** Keep out of reach of children.
- **P264:** Wash hands thoroughly after handling.
- **P280:** Wear eye protection and protective gloves where prolonged contact may occur.
- **P305+P351+P338:** IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
- **P337+P313 / P310:** If eye irritation persists, seek medical advice / immediately call Poisons Centre (13 11 26).
- **P302+P352:** IF ON SKIN: Wash with plenty of soap and water.

- **P301+P330+P331:** IF SWALLOWED: Rinse mouth. Do NOT induce vomiting. Give a glass of water to drink slowly.
- **P501:** Dispose of contents/container in accordance with local municipal recycling regulations.

SECTION 3: COMPOSITION & INGREDIENT DISCLOSURE

Chemical / Component	CAS Number	Function	Proportion (w/w)
Water (Purified)	7732-18-5	Solvent / Aqueous matrix	72 – 80 %
Sodium Laureth Sulfate (SLES 2EO)	68891-38-3	Primary high-foam anionic surfactant	8 – 14 %
Sodium Dodecylbenzene Sulfonate (LAS)	68081-81-2	High-detersive anionic surfactant	5 – 10 %
Alcohol Ethoxylate (C12-15 7EO)	68439-50-9	Grease-cutting non-ionic surfactant	3 – 7 %
Sodium Citrate	68-04-2	Biodegradable water-softening builder	2 – 4 %
Propylene Glycol & Glycerin	57-55-6 / 56-81-5	Solvents & enzyme stabilizers	1 – 3 %
Sodium Fatty Acids (Soap)	67701-10-4	Foam regulator & cleaning booster	1 – 2 %
Protease (Subtilisin) Enzyme	9014-01-1	Stain-digesting biocatalyst	0.1 – 0.5 %
Disodium Distyrylbiphenyl Disulfonate	27344-41-8	Optical brightener (CBS-X)	0.08 – 0.2 %
Fragrance Infusion (Tropical)	Mixture	High-substantivity	0.5 – 1.0

Chemical / Component	CAS Number	Function	Proportion (w/w)
		perfume blend	%
Preservatives (BIT / MIT)	2634-33-5 / 2682-20-4	In-can antibacterial preservation	< 0.05 %

SECTION 4: FIRST AID MEASURES

- **Eye Contact:** Flush with clean running water for at least 15 minutes, holding eyelids open. If discomfort or redness persists, seek medical attention.
- **Skin Contact:** Rinse affected skin thoroughly with water. Remove contaminated clothing and wash before reuse.
- **Inhalation:** If dust or vapor causes respiratory irritation, move to fresh air. Seek medical advice if breathing difficulties develop.
- **Ingestion:** Rinse mouth with water. Drink 1–2 glasses of water. Do not induce vomiting. Call Poisons Information Centre (13 11 26) or a doctor immediately.

SECTION 5: FIRE FIGHTING MEASURES

Suitable Extinguishing Media: Water spray, foam, dry chemical, carbon dioxide. Product is non-flammable.
Hazardous Combustion Products: Oxides of carbon, sulfur, sodium compounds, and organic fumes.
PPE for Firefighters: Standard protective clothing and self-contained breathing apparatus (SCBA).

SECTION 6: ACCIDENTAL RELEASE MEASURES

Avoid contact with eyes and skin. Absorb liquid spills with sand or inert absorbent and dispose in accordance with local regulations. Sweep dry powder spills using dry methods, avoiding dust generation. Prevent large untreated quantities from entering stormwater drains.

SECTION 7: HANDLING & STORAGE

Handling: Keep containers tightly closed when not in use. Avoid generating dust or splashing into eyes.
Storage: Store in a cool, dry, well-ventilated area away from direct sunlight, moisture, and extreme temperatures (< 35 °C). Keep out of reach of children and separate from strong acids and chlorine bleach.

SECTION 8: EXPOSURE CONTROLS & PERSONAL PROTECTION

National Exposure Standards: Safe Work Australia TWA for nuisance dust = 10 mg/m³.
Engineering Controls: Natural ventilation is generally adequate for domestic use.
Personal Protective Equipment (PPE): Safety glasses/goggles and waterproof gloves recommended during bulk handling or decanting.

SECTION 9: PHYSICAL & CHEMICAL PROPERTIES

Appearance:	Pearlescent vibrant orange-pink viscous liquid
Odour:	Intense tropical passionfruit and exotic floral fragrance
pH:	8.0 – 8.8 (neat liquid)
Specific Gravity / Bulk Density:	1.025 – 1.045 g/cm³
Solubility in Water:	Completely miscible / dispersible
Flash Point:	Not combustible
Phosphorus Content:	Zero added (< 0.5% NP designation)

SECTION 10: STABILITY & REACTIVITY

Chemical Stability: Stable under ambient storage conditions.
Incompatible Materials: Strong acids (causes vigorous gas evolution/effervescence with carbonates), strong oxidizing agents, sodium hypochlorite (chlorine bleach).
Hazardous Reactions: None known under normal conditions.

SECTION 11: TOXICOLOGICAL INFORMATION

Acute Toxicity: Oral LD50 (rat) calculated > 2000 mg/kg.
Skin Irritation: Category 2 (Causes mild to moderate skin irritation with prolonged contact).
Eye Irritation: Category 1 (Serious Eye Damage from concentrated anionic/non-ionic surfactant blend).
Sensitization: Contains MIT/BIT preservatives and fragrance allergens. May trigger skin sensitization.

SECTION 12: ECOLOGICAL INFORMATION

Ecotoxicity: Harmful to aquatic life at high concentrations due to surfactant load. Diluted wash water is suitable for lawn and garden greywater use.

Biodegradability: Surfactants conform to Australian Standard AS 4351 for ultimate biodegradability.
Phosphorus: Meets the Australian NP standard (zero added phosphorus).

SECTION 13: DISPOSAL CONSIDERATIONS

Empty containers are fully recyclable through standard municipal curbside recycling (yellow bin). Rinse container prior to recycling.

SECTION 14: TRANSPORT INFORMATION

ADG Code: Non-Dangerous Goods for transport by road or rail in Australia.
IMDG / IATA: Not regulated as dangerous goods.

SECTION 15: REGULATORY INFORMATION

Poisons Schedule (SUSMP): Not scheduled
AIIC: All chemical components are listed on the Australian Inventory of Industrial Chemicals.

SECTION 16: OTHER INFORMATION

Compiled in accordance with the Safe Work Australia Code of Practice for Preparation of Safety Data Sheets for Hazardous Chemicals.
Issue Date: October 2026 | Document Reference: COL-ULT-LIQ-04
